WHAT PEOPLE SAY:

“

"Mounia's exceptional moderating skills and infectious energy were the driving force behind the event's success. Her passion and enthusiasm were contagious, and she seamlessly guided the event through its various stages, ensuring that all participants were engaged and informed"

(Michiel Visier, Management Events)

"I was impressed by the research and preparation Mounia completed ahead of the session, and also by her friendliness and approachability. It felt like chatting to an old friend. Mounia infused this blend of approachability and professionalism into her work throughout the day. Whether she was introducing speakers or managing panel discussions, she was knowledgeable, well-prepared and friendly. She had clearly done her homework but also didn't take herself too seriously, allowing her to present with assurance and ease.

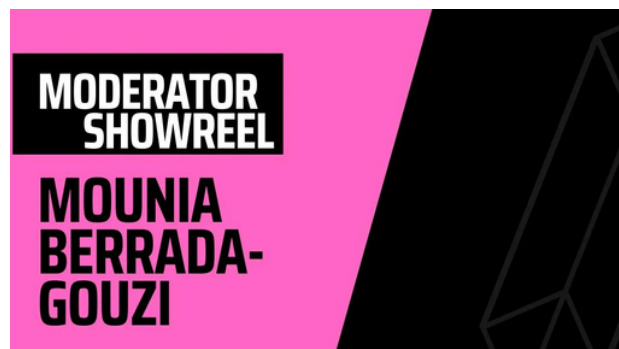

It was a joy to take part in the event, and much of this was down to the atmosphere created by Mounia
